<p>Minor REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>		
<p><b>Optional/General</b> comments</p>	<p>Title must include scientific name of crop . Also give some information about CFLDs scheme in introduction yield comparison must be as world average national average state average and district average it should also highlight in results and discussion Methodology. Need all the formula s used in calculation eg all gap as well as index CV may be calculated cluster wise as well as over all In intervention part variety character also mention eg duration etc There is also a need to use some statistics eg zTest The results of this study may be useful to increase the yield of pulses in general and pigeon pea particular One common thing is that use only Pigeon pea or Red gram in manuscript</p>
