

Review Form 3

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_124084
Title of the Manuscript:	Research on valuation method of bill of quantities for prefabricated shear wall structure based on BIM
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This paper explores the use of BIM in preparing the bill of quantities for shear wall calculations, improving accuracy and efficiency. BIM automates quantity generation, reducing manual errors and enabling real-time updates. It enhances collaboration between project stakeholders by providing detailed 3D visualizations. Additionally, BIM streamlines cost estimation and project management.	
Is the title of the article suitable? (If not please suggest an alternative title)	No. Comprehensive Review on Valuation Method for Bill of Quantities in Prefabricated Shear Wall Structures Using BIM	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Kindly add a general conclusion based on your review on this topic in your abstract.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust as it presents a review on analysis of valuation methods for prefabricated shear wall structures using BIM, supported by literature. It utilizes reliable computational tools and frameworks, which enhances the technical soundness of the study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Kindly check the paper once again for grammatical error and spacing between words. SEE ATTACHMENT	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
