Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I would like to take the opportunity to appreciate the way this article touched on a very important emerging health problem with a significant burden . Furthermore, many important subtopics have been covered in appropriate detail. Juvenile myopia is a life altering condition which can be tackled better with awareness and early precautions , all of which this article helps promote	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is self explanatory and appropriate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	1.) Can consider adding actual numerical data of myopia prevalence and trends across years with age groups .	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust but here are some suggestions for things that can be added :- 1.)Can add more details on which exact genes have been found to impact myopia 2.) Can add limits of screentime as in the cutoffs beyond which damage is inevitable with data supporting the same 3.) May want to add pathophysiology of how myopia leads to glaucoma and retinal detachment along with timeline of such changes.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes the language is clear and technically sound	
<u>Optional/General</u> comments	It was a great experience to review this manuscript
