

Review Form 3

Journal Name:	Journal of Materials Science Research and Reviews
Manuscript Number:	Ms_JMSRR_123935
Title of the Manuscript:	Synthesis And Characterization Of Zeolite A From Aloji Kaolin Via Hydrothermal Method
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>The manuscript “Synthesis And Characterization Of Zeolite A From Aloji Kaolin Via Hydrothermal Method” studied the synthesis and characterization of Zeolite A from Aloji kaolin via the hydrothermal method and the effect of short crystallization times (0.5h, 1h, 1.5h, 2h, and 3h) and high crystallization temperature of 115 °C on the formation of Zeolite A as the final product was investigated.</p> <p>The authors should address the following</p> <p>1) Figure 1 needs Physical quantity and units, Figure 2 needs its units 2) The phase of the sample can be identified by using (hkl) values which is not mentioned/indicated in the XRD results. 3) Figure 3 needs scale in the SEM images and few SEM images not labeled properly. 4) Figure 5 needs units to the physical quantity along Y-axis.</p> <p>5) All the Figures are blurred, authors need to submit the high quality images for Figures.</p>	

PART 2:

	<p>Reviewer’s comment</p>	<p>Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
