PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The incidence of hypoglycemia during hemodialysis is extremely high with ESRD patients, and diabetics are more prone to severe episodes. They are also at great risk if they are non-diabetic patients. In this manuscript findings explain the importance of better surveillance and intervention efforts, especially for patients with diabetic end-stage renal disease receiving hemodialysis.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes, subsections are appropriately written.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study involved 156 participants who were ESRD and receiving routine hemodialysis, making the findings an invaluable resource in estimating the rates of hypoglycemia during dialysis sessions. The results are in the form of tables, each providing a unique vantage point for the gathered data.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some recent references shall be added.
