

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	<b>Ms_JABB_122989</b>
Title of the Manuscript:	<b>Evaluation of Several Bio-intensive Treatments for Uzi fly Suppression in Mulberry Silkworm (<i>Bombyx mori</i>)</b>
Type of the Article	<b>Original Research Article</b>

#### **General guidelines for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article is important, because it addresses modern methods in dealing with the problem of silkworm breeding being exposed to the problem of infection with this parasitic insect (although the essence of biological control depends on parasitoids, predators, and pathogens). However, the silk industry requires us to protect the life cycle of the silkworm moth, and here, on the other hand, we find that the use of Plant extracts are promising safe alternatives like plant's oils studied in this article.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There is a need to make minor adjustments to the summary	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article is written with a scientific methodology and good style, in terms of arranging the titles correctly, using appropriate words, sentences, and terminology to write the introduction, reference study, importance, materials, methods, results, discussion, conclusion, and references.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Yes	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Yes, with the need to make some simple amendments to the text of the article.	
<b>Optional/General</b> comments	The scientific name must be written in italics (Italic) for each of the studied plant species, the silkworm and the parasitic fly, accompanied by the English name at the beginning along with the name of the scientist who classified that species. When the name appears the following times, we suffice with writing the abbreviated scientific name or the English name only	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

#### **Reviewer Details:**
