PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>In this paper the authors gave a major focused on understanding the interactions between these biological control agents and their environments, and how these relationships can be optimized to support resilient crop production systems and to manage these pests in cotton and rice crops. Integrating these natural enemies into pest management strategies, farmers can reduce reliance on chemical pesticides, enhance biodiversity, and promote sustainable agriculture. By considering these issues this manuscript will be highly helpful for farmers and researchers point of view.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Alternative title: Natural enemies as guardians of crop ecosystem with special emphasis on rice and cotton</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Yes abstract is well written</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>As I have already gave the comments in the manuscript itself and once again here am recommending some of the point from the scientific point view: Always the spp. should not be in italic form for any insects. Firstly the common name of the pests should be written, then the scientific name and finally the authority name of the pests should come.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Yes. Its sufficient to publish this manuscript.</p>	
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Quality of the english is well written for the communication and the manuscript can be accepted for the publication after minor revisions.</p>	
<p>Optional/General comments</p>
