Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I liked the article because it covered all aspects of heart failure. It is a handbook not only for nurses but for all health care professionals. The holistic approach made it very comprehensive.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title appropriate	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is appropriate and sufficient.	
Are subsections and structure of the manuscript appropriate?	Subdivisions and structure of the article are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This article looks at the issue holistically. First, it talks about the management of heart failure. Then it talks about the roles of nurses in this management. It explained the cause of the symptoms related to heart failure and explained the causality of the practices.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient but not up to date, please make sure that they are in the last 5 years.	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language of the article is appropriate.	
<u>Optional/General</u> comments	The physiopathology of heart failure should be mentioned in the introduction. It is better understood why which application is done. Heart Failure Management, Lifestyle Changes, Medication Management, Nursing Interventions, Patient Education These are enough for keywords.
