PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This paper is important because it highlights de novo formation of pulmonary thrombosis without any antecedent dvt. However not enough supportive data is available to establish their claim as death due to pulmonary thrombosis	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is concise	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	There has to be data regarding the pulmonary embolism index which is missing. The details of the patients are required. Also the article says that the patient came with tachycardia but the ecg shows sinus rhythm	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	It needs to be in Vancouver style	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes
