

Review Form 1.7

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_120002
Title of the Manuscript:	Methods for preventing overfitting in machine learning and deep learning
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The article called Methods for preventing overfitting in machine learning and deep learning is really important for readers of the International Journal of Science and Research IJSR because it talks about a big topic that a lot of people are interested in.</p> <p>By using the title Methods for preventing overfitting in machine learning and deep learning the research makes its main point and goal very clear, which helps everyone understand it easily without any confusion. This really helps make the article clear and relevant suitable too.</p> <p>As the study describes all the main points and covered all areas elaborately,so it is quite comprehensive.</p> <p>The article skillfully communicates the importance of the research, successfully captivating readers and bolstering its credibility in the process.Its quite appropriate.</p> <p>With the extensive utilization of citations, the article elevates its credibility, reliability, and impact, allowing readers to verify sources and acquire a deeper scientific understanding.</p> <p>With the extensive utilization of citations, the article elevates its credibility, reliability, and impact, allowing readers to verify sources and acquire a deeper understanding.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The English in the article is good. Its well-written, clear, and easy to understand. We didnt find any big grammar or spelling mistakes.</p>	
<p>Optional/General comments</p>
