

Review Form 3

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_124345
Title of the Manuscript:	Farm Management and the Production Efficiency of rice farmers in the Western Highlands of Cameroon: Evidenced from a Tobit Analysis Approach
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is overworded in the introduction section. The introduction can be summarized, and a solid theoretical framework can be built for manuscripts with recent available literature. Recent data could be used to justify the literature. The author can use recent advanced Stochastic Frontier Model and Data Envelopment Analysis models in estimation techniques. The Tobit Model approach is a good one for Inefficiency estimation.	
Is the title of the article suitable? (If not, please suggest an alternative title)	Yes, it is suitable for the title.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	A little bit, It can be comprehensive with relevant literature.	
Are subsections and structure of the manuscript appropriate?	The Literature Review and Research Gap are missing.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Scientific evidences are interpreted as supportive evidence with findings of manuscripts. It can be more comprehensive with better clarity in the theoretical section connected to the results and discussion section. Index calculation can be an alternative. Estimation of function is not precise. It can be connected with recent advancements in efficiency estimation.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are used in this manuscript. There are some new scientific works on farm management and technical efficiency.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	The manuscript is relevant and worthy of future work with some modifications.
