Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is very important for breeders for selection high yielding genotypes under rain fed condition. Still I recommend adding another season, also needing more analysis. And there are too much literature not give the reader any meaning.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is sufficient for all the information.	
Are subsections and structure of the manuscript appropriate?	Yes, but too much literature	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Change word resistant for abiotic stress to tolerant. Need new season	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Good references all recent	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Good language. The word resistant is not used for environmental stresses, he should use tolerant	
Optional/General comments	This experiment for one year for that I think need second season to confirm the results.
