**PART 1: Review Comments**

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Manuscript has been written to enlighten a known and proven fact of hyperparathyroidism in CKD End stage patients. Although a very basic fact known and practiced across the nephrology world, there is a feel of some newer aspect in between the manuscript, covering some newer aspect among the regional nephrology updates.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is Ok	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Article writer should add some adverse effects of high parathyroidism and when and how to treat it.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It seems technically sound to me. The main theme of research is from a third world country with limited resources, yet a good effort. A big chunk of dialysis patient is in study. Samples taken is cross sectional and enough to prove the facts and figures.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	YES	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments
