Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is an important issue to know the relationship that exists between meteorological factors and the effect of the incidence of important pathogens such as mildew, mainly with a view to finding control measures.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I consider it meets the minimum requirements of an abstract. I would like to be able to better visualize the conclusion in it.	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It is recommended to specify in more detail what it refers to if it uses a scale to measure the incidence mainly if humidity and precipitation are going to be correlated, it would give us a better perception of the real effect on the incidence of the pathogen.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
<u>Minor</u> REVISION comments
