PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The indiscriminate pesticide application leads to resistance, residue, and recurrence, posing environmental and human threats. New generation pesticides have systemic action, potentially causing toxicity in the plant system, posing health risks. Ecofriendly management of onion thrips requires bio pesticide and botanical.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need improvement	
Are subsections and structure of the manuscript appropriate?	Need improvement	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript need extensive editing and takes time, so please review it thoroughly.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Although the references are not that ancient, the writing style is quite casual. We kindly request authors to review the references section two or three times.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	General approach	
Optional/General comments	The research paper's writing style is extremely sloppy, especially when it comes to the references, where many references appear incomplete and the journal titles are essentially abbreviated. The significance of the research was not even mentioned by the writers in their research report. Writing a research paper takes a somewhat informal approach.
