

Review Form 3

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_125204
Title of the Manuscript:	Constraints faced by farmers in availing the extension services of Department of Agriculture
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article's value lies in its potential to inform policymakers about the challenges faced by Raitha Samparka Kendras (RSKs) in providing extension services to farmers. This knowledge can be used to develop strategies for overcoming these constraints and improving the effectiveness of agricultural extension efforts. Recognizing the critical role of farmers as the backbone of agriculture, the government can leverage this information to address the specific needs and challenges faced by farmers in utilizing RSK services.	
Is the title of the article suitable? (If not please suggest an alternative title)	Not "Constraints faced by the farmers in utilizing Raitha Samparka Kendras (RSKs) –Extension services"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please make the suggested corrections in the article	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Given the focus of this article on identifying constraints, the Garrett ranking technique could be a valuable tool for analysis. This technique, which involves assigning frequency percentages to various factors, is a commonly used method for assessing the relative importance of different variables. The author might have done overall constraint analysis with the five major categories	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Recent references should be added with regard to study	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Please include the modified paragraphs to increase the quality of the paper as suggested in the article 24 comments were included in the article	
Optional/General comments	Overall the article is very good
