Type of the Article	

PART1: ReviewComments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is a good research paper on where it helps to understand single mothers' that are institutionalized in relation with their life satisfaction. In addition, this manuscript attracts other researchers to have collaborations to investigate non-institutionalized single mothers in the same state. There are further more investigations can be done by referring to this manuscript.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is OK, but it is broad. Suggested to make the title based on most significant finding and interesting. Suggested title "Decreased Life Satisfaction among Institutionalized Single Mothers: Loneliness is not the main factor".	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Suggestion to make some improvements for the abstract. Kindly arrange in sequence. Put objectives, followed by methodology, results and lastly conclusions and recommendation.	
Are subsections and structure of the manuscript appropriate?	For literature review, kindly arrange in sub-headings. For example, sub-heading: "life satisfaction and institutionalized single mothers" and do other sub-headings as well. This will help readers to be able to follow the author's train of thoughts in the manuscript. Ethical Considerations should be at the end of manuscript. Before conclusion.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript presented good structure, where consists of introduction, literature review, methodology, data analysis, ethical considerations and conclusion. Suggested to add on recommendation of study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient enough.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes. Suggested to do proofread.	
Optional/General comments	N/A
