Manuscript Number:	Ms_AJMAH_125081
Title of the Manuscript:	Stump appendicitis: An update on current management- Narrative review article
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Manuscript is written well. All relevant literature has been reviewed. Inclusion of meta analysis, retrospective and prospective study as well as case series has been done. So this is a good manuscript which concises the literature available on the topic.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. No changes required in the abstract.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Manuscript is scientifically correct as it has included most of the available literature. Manuscript is scientifically robust and technically sound because it presents the available literature over a long duration in concise manner. It includes all aspects of clinical presentation, diagnostic modalities and treatment options along with details of surgical methodology.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes. References are sufficient and recent.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	The last line of Introduction "Adult and Pediatric patients who presented with stump appendicitis were included in this study and pregnant patients with acute appendicitis were excluded." For pregnant patients – is it patients with acute appendicitis or acute stump appendicitis. Please add reason of exclusion whether it was because of risk of anesthesia and patients could not undergo surgical treatment or anything else.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
