

Review Form 3

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_124124
Title of the Manuscript:	Analysis of energy outputs photovoltaic power plants under extremes climatic conditions - Case of the Sahel
Type of the Article	Original Research Article

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The study has explained, both theoretically and experimentally, the strong PV energy output for specific time period. Energy, by far the most important issue to be solved, can be handled with focusing on the renewable sources and this study is a very good representation from this aspect.	
Is the title of the article suitable? (If not please suggest an alternative title)	Just a Recommendation: A Comparative Study on the Analysis of Photovoltaic Power Plants under Extreme Climatic Conditions	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the paper is comprehensive.	
Are subsections and structure of the manuscript appropriate?	The gaps in the text had better to be reorganized.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	2. Theories and Methods – Material and Methods 2.2 Decision for PV System Figure 2: The figure may be replaced with a more recent version –if possible- There is no need to write clearly where there is an abbreviation (photovoltaic---PV)	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	If there are more recent studies related to the study, they can be added.	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The English quality of the article is suitable.	
<u>Optional/General</u> comments	If there are more recent studies related to the study, they can be added.
