

Editor's Comment:

I accept the manuscript for publication in the Journal.

Considering the reviewers recommendations and the authors corrections, we can publish this manuscript. The reasons are as follows:

1- One of reviewers gives comment such as "The subject matter is of general interest to the scientific community. The manuscript provides a concise analysis."

2- One of reviewers gives comment such as "The article shows the annual trend in the incidence of cosmic rays in the Earth's atmosphere during the years 2016-2017. The data are accompanied by a credible interpretation taking into account previous studies. I consider the article suitable for publication, as these data may be of interest for other studies on cosmic radiation and solar activity"

3- One of reviewers gives comment such as "The topic of this manuscript is interesting and attractive for the scientific community."

4- All reviewers give comments such as "Accept after minor revision".

According to the comments, the authors have corrected the paper carefully.

Therefore, the paper has enough value for publication in the Journal.
