

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_122697
Title of the Manuscript:	Effect of Soluble Silica On Plant Stress: An Experimental Study
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The paper explained about the Effect of Soluble Silica On Plant Stress theoretically but there is no practical implementation shown, as per the title they have not performed on specific data set. 1. literature review not performed correctly 2. Data collection and usage 3. Experimental setup and analysis explained theoretically 4. There is no proper exhibition of results and discussion	
Is the title of the article suitable? (If not please suggest an alternative title)	Can be changed	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is not comprehensive. Which does not contains the details like, Purpose and Scope, Methods, Results and Findings, Significance and Implications.	
Are subsections and structure of the manuscript appropriate?	Not up to the standard	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper title is "Effect of Soluble Silica On Plant Stress: An Experimental Study" but there is not much study done and there is no data collection on soluble silica on plants for experimental purpose.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are less.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	English quality is not up to the mark.	
Optional/General comments	The paper explains the five general aspects of computer science engineering for crop growth like, Artificial Intelligence, Computer Vision, Pattern Recognition, Computer Graphics, Color Detection Models, Color Detection Algorithms. There is no specific technique or algorithm being explained or used in the paper.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
