

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Soil Science and Plant Nutrition</a>
Manuscript Number:	Ms_AJSSPN_124567
Title of the Manuscript:	Effect of nano urea and nano DAP on growth, yield and nutrient uptake of transplanted rice
Type of the Article	Research paper

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	1.This manuscript helps to the researchers to enhance their knowledge for future experiments 2. Application of nano urea and nano DAP helps to improves the nutrient use efficiency and also helps to get maximum yield. 3. Deficiency of Nitrogen is a major problem in Indian soil. Use of nano urea will helps to improve N availability in soil.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Effect of nano urea and nano DAP on growth, yield and nutrient uptake of transplanted rice ( <i>Oryza sativa</i> L.)  <b>SEE ATTACHMENT</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	No need to add or delete but should be make in comprehensive	
<b>Are subsections and structure of the manuscript appropriate?</b>	Structure and subsections are in good format	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	1. This manuscript is technically sounded and all information about effects of nano urea and nano DAP on soil properties as well as crops. 2. Study subject is particularly relevant given its agricultural importance and unique characteristics, making the findings highly applicable in sustainable agriculture. 3. Beneficial for sustainable soil management practices and crop management practices.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	References are not sufficient please add and references are not in APA style and all journals name should be in italic font.	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Minor revision is required	
<b>Optional/General</b> comments	The manuscript is a valuable contribution to the field, providing both theoretical insights and practical recommendations for the use of nano urea and nano DAP in improving soil health as well as sustainable nutrient use.	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No ethical issues in the manuscript

**Reviewer Details:**

Name:	<b>Umesh Kumar</b>
Department, University & Country	<b>Sardar Vallabhbhai Patel University of Agriculture and Technology, India</b>
