

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_124944
Title of the Manuscript:	Studies on genetic variability and heritability in rice genotypes (<i>Oryza sativa</i> . L.) under salinity
Type of the Article	Research

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript provides a great information regarding the phenotypic and genotypic variation in rice under Salinity Stress. I like this manuscript for its research methodology and the discussion part	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract needs to be amended a bit. The author can elongate the abstract to 200 words and try including some problem statement that this article tends to solve rather than just the results in it.	
Are subsections and structure of the manuscript appropriate?	The author need to add conclusion to make it more robust	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It is scientifically correct. The author has followed all the required protocols for conducting this research	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	Try incorporating the changes that I have mentioned in the comments in the introduction portion. Also, it would be great to see the sub-sections in the results and discussion for various parameters studied	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
