

Review Form 3

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_124048
Title of the Manuscript:	An Observational Study on Clinical Benefits of CytoSorb in Patients with Severe Sepsis
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The CytoSorb technology under consideration is meeting the most pressing needs in the treatment of septic shock. This warrants encouragement towards scientific exploration and evidence generation.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript adopts a structured approach in the conduct of its investigation. Besides, it covers all the necessary elements which qualifies for acceptance in your esteemed journal.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	<p>The authors should avoid assessing mortality for the intervention which is adjuvant and is designed to improve hemodynamic stability. In septic shock patients, there are numerous causes/variables for mortality and one shouldn't pin it down to a single intervention.</p> <p>Is the CytoSorb score validated? If not, the same may be added to limitations and future research</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in detail)</i>
