Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It's a good manuscript. The authors have pointed out rightly regarding the importance of anaesthetic care necessitated in polytraumatized patients. They have provided good details regarding the methods of induction and anticipated complications.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. Some words are at repetition. Remove or rephrase the last two sentences.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Yes. The manuscript is scientifically correct. Provides good evidence regarding urgency and need for an anaesthetic doctor required in a trauma management team. Polytrauma is truly a burden on hospital and resources available at hand are sometimes scanty. In such cases, good decisive and timely management of anaesthetist in resuscitating and maintaining a patient is critical.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes.	
<b>Optional/General</b> comments	The history part should have been a little more elaborated. There are various classification systems available when dealing with polytrauma patients. Those classifications should be put to use in cases of emergency. They should be mentioned in the discussion part with reference to index case.
