Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_121884
Title of the Manuscript:	Land Suitability Evaluation for Improvement of Banana/Plantain Production in Bayelsa State, Southern Nigeria
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>	<p style="text-align: center;"><u>Comments</u></p> <p>The manuscript entitled "Land Suitability Evaluation for Improvement of Banana/Plantain Production in Bayelsa State, Southern Nigeria" is a good piece of work on land suitability taking various parameters on which suitability depends. I have gone through the paper and found that it is good case study on banana/Plantain production. I am recommending for acceptance of the paper with some minor correction and update in the paper as mentioned below.</p> <ol style="list-style-type: none"> 1. In introduction add some more work on land suitability showing the significance of drainage and soil types. 2. Detailed information about study area is required. 3. Maps related to suitability can be added to make it more effective. 4. Check the reference style. 5. Lastly recommended for improvement of language of the text. 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
