Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	In my opinion, Covid-19 has been over for a long time, and its impacts have been discovered.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is quite general, without any emphasis on the research issue.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The summary is too long but does not clearly present: what problem was studied, what research methods were used, what the results were and what their significance was.	
Are subsections and structure of the manuscript appropriate?	<ul style="list-style-type: none"> - Introduction: mostly wrote about about covid-19, corona, still not realizing what the research problem of this article is. - The theoretical framework for the study has not been presented. This leads to the presented results having no scientific basis. - Research method: presented, but not explained in detail (eg: Q-O-Q method; Y-O-Y method) and why Y-O-Y method was chosen. - The conclusion is quite sketchy, not writing about the contributions of this study. <p>Repeated paragraph on page 4</p>	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	In my opinion, I do not see anything new, not new contributions in this study. Covid-19 has been over for a long time, and its impacts have been discovered.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Reference: most of the articles published in 2020, 2021	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Acceptable	
Optional/General comments	I expect this study to show more novelties, or domino effects from the Indian economy to other national/global economies.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
