

**Review Form 3**

Journal Name:	<b>Journal of Advances in Biology &amp; Biotechnology</b>
Manuscript Number:	<b>Ms_JABB_122005</b>
Title of the Manuscript:	<b>Correlation And Path Coefficient Analysis For Yield And Its Component Traits In Advanced Breeding Lines Of Rice [ORYZA SATIVA L.]</b>
Type of the Article	<b>Plant Breeding and yield related characters evaluation</b>

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	While making a variety, , different lines must be crossed to check their combining ability and corelation of different characters. I like this manuscript because there is screening of different lines of rine. Screening is very much important to develop a rice variety. I strongly recommend this paper for PUBLICATION but with minor changes which I will point our in next columns. The paper stuff is upto the mark, so no need to add more scientific stuff.	
Is the title of the article suitable? (If not please suggest an alternative title)	Need to change the title as CORELATION AND PATH COEFFICIENT ANALYSIS FOR YIELD AND ITS RELATED TRAITS IN ADVANCED BREEDING LINES OF RICE ( <i>Oryza sativa</i> ) TITLE may kindly be changed please.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please read and improve the ABSTRACT . as abstract is the HEART of any manuscript. In abstract, it was written TEST WEIGHT , As this word seems NOT SUITABLE. So need to change this character. It is good if ABSTRACT must increase 4-5 Lines more. In STUDY DESIGN , need to add some more stuff to clear about a specific design	
Are subsections and structure of the manuscript appropriate?	Manuscript is appropriate and perfect. Satisfactory	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Scientifically, it is clear in paper about the methodology of the research. Also results {of yield related traits} are more clear. Graphs and table also mentioned to provide a through understanding about the research, its methodology, its results etc. so I strongly recommend to publish this manuscript as this manuscript will be more helpful for upcoming researachers before initiation any research relavent to rice lines/  I am satisfied about the paper as it is scientifically robust with enough stuff.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Whereas , I checked the references, this manuscript need to add more references to support the results. I think, 5-6 more references must be add to support the methology and results. Need to add more references plz.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Language is SATISFACTORY and article is almost 95% suitable for further scholarly communication etc  Enough satisfactory	
Optional/General comments	Overall, the paper is SATISFACTORY with good stuff. But need to improve its TITLE. Abstract must be increased to 4-6 lines more.  MAY ACCEPT FOR PUBLICATION but after some minor changes.	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

#### **Reviewer Details:**
