Manuscript Number:	Ms_JAMMR_122375
Title of the Manuscript:	Comparison of the attractiveness of posed x spontaneous smiles at the end of orthodontic treatment
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Subject is important an many ways as assessing patents satisfaction, patents education and communication, can be used for training new operators, to enhance clinic outcome/marketing etc	
Is the title of the article suitable? (If not please suggest an alternative title)	According to me title is incomplete PICO format is not followed , I would suggest the title - Attractiveness of Posed and Spontaneous Smiles in Orthodontic Patients: Insights from Dentists, Orthodontists, and Laypeople	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Gender and Age variables should be mentioned as they have mentioned in the results	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	All things considered, the study was done properly and offers insightful information about what makes a smile beautiful, information that can guide future orthodontic research as well as clinical practice. The study's strength is enhanced by its methodological rigor and clear findings presentation. Additionally, its discussion and conclusions provide practical implications for enhancing patient satisfaction and treatment success.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No any suggestions	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes by all means	
Optional/General comments
