PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	The topic is not of great clinical significance to the scientific community as multiple papers have already been published on the subject, yet the case report is well written and is not bad in terms of highlighting the complications and predisposing factors of diverticular disease.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive albeit a bit long. Could be paraphrased a bit.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	The article is scientifically correct and the quoted research and facts are correct.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Yes	
Minor REVISION comments Is language/English quality of the article suitable for scholarly communications?	A few minor revisions need to be made as have been highlighted in the paper. This is a case report hence everything should be mentioned in the past tense as having already occurred. The author keeps shifting back and forth between the present and past tense.	
Optional/General comments
