PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The paper effectively aligns its discussion with the objectives of NEP 2020, ensuring relevance and contextual grounding. It offers a comprehensive overview of innovative assessment techniques, enabling educators to explore various approaches. The comparison between conventional and innovative methods is well-structured, clearly outlining limitations and introducing alternatives. Additionally, the paper emphasizes holistic and experiential learning, promoting both cognitive and non-cognitive skill development.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article, " <i>Navigating the Way Through Some Innovative Assessment Techniques in Line with India's National Educational Policy-2020</i> ," is descriptive but could be more concise and focused. It effectively reflects the content but may benefit from rephrasing to make it clearer and more impactful.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is generally comprehensive but could be improved by clarifying the research objectives, and briefly noting any limitations or challenges. A concluding statement summarizing the research's impact, or implications would also enhance the abstract's completeness.	
Are subsections and structure of the manuscript appropriate?	The subsections and structure of the manuscript are generally appropriate and well-organized.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust and technically sound due to its alignment with established educational theories and adherence to the principles outlined in India's National Education Policy (NEP) 2020. The paper carefully references existing literature, providing a strong theoretical foundation for the innovative assessment techniques it discusses. Additionally, it effectively critiques traditional assessment methods, offering well-reasoned alternatives supported by educational research. While empirical data could strengthen the manuscript, its theoretical arguments are logical and supported by credible sources, making the manuscript scientifically valid and well-grounded.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The manuscript includes strong references; however, it is recommended to incorporate more recent sources, particularly those addressing the latest advancements in adaptive learning technologies.	
Minor REVISION comments
