Title of the Manuscript:	Changes in soil physico-chemical properties under different land-use systems
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is crucial for the scientific community as it provides valuable insights into how different land-use systems influence soil physico-chemical properties. Understanding these changes is essential for developing sustainable land management practices, enhancing soil health, and optimizing agricultural productivity.	
Is the title of the article suitable? (If not please suggest an alternative title)	If possible, the author should adopt this title: "Impact of Various Land-Use Systems on Soil Physico-Chemical Properties"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract of the article comprehensive	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure of the manuscript appropriate

A minimum of 3-4 sentences may be required for this part.	The findings can inform policy decisions, guide conservation efforts, and contribute to the broader field of environmental science by offering data-driven evidence on the impact of land use on soil quality. This knowledge is vital for ensuring long-term ecological balance and agricultural sustainability in various ecosystems.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References sufficient and recent but the citations are not according to the Journal	
Minor REVISION comments Is the language/ English quality of the article suitable for scholarly communications?	English quality of the article suitable for scholarly communications
