

**Review Form 3**

Journal Name:	<b>Journal of Experimental Agriculture International</b>
Manuscript Number:	<b>Ms_JEAI_122548</b>
Title of the Manuscript:	<b>Root Characters of high oleic and normal groundnut varieties as influenced by nutrient management under well water and water stress environments.</b>
Type of the Article	<b>Research article</b>

**Review Form 3**

**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>1) The researcher (s) must make the modifications recorded in the manuscript.            2) Some paragraphs require rewriting            3) Materials and methods in their current form are not acceptable, because they require more details            4)The study focused on physical characteristics without conducting chemical analyses.            5)The manuscript lacks mentioning the type of experimental design and statistical analysis            6) 1- The study did not address the relationship between good or poor irrigation and oil production.            7) Acceptance of a manuscript for publication after making required Corrections to it</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Yes</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>1- Identifying key traits affected by the irrigation change in groundnut will be important for developing an appropriate strategy for developing new varieties.             2- Fast-changing scenarios of product ecologies as a consequence of the irrigation change need faster development and replacement of improved varieties in the farmers' fields to sustain yield and quality.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Adequate for the characteristics studied in this research</p>	
<p><u>Minor</u> REVISION comments             Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Good but there are some paragraphs that require some changes in the manuscript</p>	
<p><u>Optional/General</u> comments</p>
