Manuscript Number:	<b>Ms_ACRI_122880</b>
Title of the Manuscript:	<b>Centrality of Information Sources in Agricultural Input Networks: Insights from Social Network Analysis</b>
Type of the Article	

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is highly valuable to its targeted audience, particularly in relation to their information acquisition patterns and the relevance of information sources to farmers. With public discuss on global warming, the article highlights how farmers have been able to navigate these challenges by preferring certain sources of information to others. The paper also highlights the complex information system in the farming sector in certain part of India	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable, but it can be recommended that 'farmers' should find a place in the title line.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Some initial details in the abstract can be taken to the body of the work	
Are subsections and structure of the manuscript appropriate?	The figures should be labelled appropriately.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article addresses contemporary issues affecting farmers in a country where agriculture significantly contributes to the GDP. These issues are broadly relevant, particularly considering the impact of climate change on the farming industry. The article is technically sound, reflecting the author's professional approach. The paper is particularly engaging due to its relevance and depth of analysis.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references require consistency and additional details in certain areas, such as online sources. Additionally, using a single reference style for both in-text citations and the reference list is essential for your research.	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Proofreading is required.  Spelling consistencies (American/British) can be adhered to improve the quality of your research.	
<b>Optional/General</b> comments	Labelling your map and citing the source are essential for reference purposes.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
