## Review Form 3

### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<b>Tourism today becomes a lever for the development of countries; It is interesting to know the way in which tourism has been diversifying over the years, and in this case agrotourism is an emerging way to strengthen the economy of nations; Therefore, the manuscript is important and interesting for its novelty, addressing other forms of tourism.</b>	
Is the title of the article suitable? (If not please suggest an alternative title)	<b>Title</b> The title is well structured, it is short and concise adequately reflects the content of the article, clearly describes the contents of the articles.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<b>Summary</b> The summary projected an overview of the subject, but could be improved, should include part of the results obtained from the research. It does not present concrete results of the overall study and the main findings of the research. The keywords are too general, they must be more specific trying to orient the content of the summary itself.	
Are subsections and structure of the manuscript appropriate?	<b>Conceptual framework</b> No conceptual framework is presented, nor is a glossary of more usual terms on the subject of "Agriculture" and "Agrotourism" presented at least to supplement the absence of the concept framework, allowing to understand in a technical language the concepts and their derivations,	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<b>Outcome of the review</b> Review result In general, it can be published with some corrections in its methodological structure and content such as the one already mentioned above, for example the inclusion of a glossary is pertinent, and the part that must be mentioned such as the dates of application of the questionnaires, and some recommendations from the authors themselves in relation to agrotourism	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	<b>Theoretical framework</b> When analyzing the construction of the theoretical framework, it is found that it is sufficient for the research, some authors with previous studies on the topic of agriculture in India are mentioned, and authors who address the topic of "Agritourism" are also mentioned. The contribution made to the topic with the authors mentioned on the topic of "Agritourism" is sufficient.	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Of course, if the use of language is appropriate for communications of this type of research, it is understandable and legible.	
<u>Optional/General</u> comments		

## Review Form 3
