Manuscript Number:	Ms_AJESS_120713
Title of the Manuscript:	Contribution of KKS Students in Fostering Faith and Piety of the Young Generation in Rural Indonesia
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.		

Review Form 3

<p>Minor REVISION comments</p> <p>Is language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>	<p>Peer Review</p> <p>Contribution of KKS Students in Fostering Faith and Piety of the Young Generation in Rural Indonesia</p> <p>Advantages</p> <p>The article's clear objective and relevance are to foster faith and piety among Indonesia's rural youth through the KKS program, which is a significant and pertinent issue. The goal is clearly stated; it is to assess the program's efficacy and examine the contributions made by KKS students.</p> <p>Thorough Review of the Literature:</p> <p>The literature review discusses many facets of the formation of faith and piety and emphasizes the value of religious education in fostering moral character. A strong theoretical basis is provided by references to earlier research.</p> <p>Comprehensive Methodology:</p> <p>A thorough explanation is provided for both the case study method and the qualitative descriptive approach. Techniques for gathering data, such as document analysis, interviews, and observation, are suitably described. Validity and dependability of results are guaranteed by the application of thematic analysis and data triangulation.</p> <p>Observational Results and Conversation:</p> <p>A detailed examination of the beneficial contributions made by KKS students can be found in the results section. The discussion does a good job of connecting the results to the larger body of work and theoretical framework.</p> <p>Practical Consequences and Suggestions:</p> <p>The article highlights that in order to optimize the program's benefits, support from a variety of stakeholders is required.</p> <p>Limitations</p> <p>Abstract and Introduction: More precise information about the sample size and the particular contributions made by KKS students would be helpful for the abstract. Although strong, the introduction might benefit from a quick rundown of the KKS program's background and wider effects.</p> <p>Literature Review:</p> <p>While thorough, there is some repetition in this review, and it could be more succinct.</p> <p>Including more recent research would give an updated viewpoint.</p> <p>Methodology:</p>	

Review Form 3

	<p>There is a lack of clarity regarding the criteria and procedure for selecting participants for the sample. Improving the methodology's limits and possible biases would strengthen the study's validity.</p> <p>Results and Discussion:</p> <p>The results section could include more specific examples and direct quotes from participants to illustrate the impact of the KKS program. Comparing the KKS program with similar initiatives in other regions or countries would provide a broader context for the findings.</p> <p>Conclusion and Limitations:</p> <p>The conclusion effectively summarizes the main findings but could offer more specific recommendations for future research and program improvements. The limitations section is well-articulated but could be expanded to discuss strategies for overcoming these limitations in future studies.</p> <p style="text-align: center;">Ideas for Enhancement</p> <p>Improve Specificity and Detail: Provide precise information regarding sample size and contributions in the abstract. In the introduction, give a succinct overview of the KKS program's background and overall effects. Revise and Simplify the Literature Review: Steer clear of duplication and make the review shorter. Include current research to offer viewpoints that are up to date. Make the methodology clear by outlining the participant selection criteria and the sample selection procedure in detail. Talk in more detail about methodological constraints and possible biases.</p> <p>Provide Specific examples and direct quotes in the results section to demonstrate the impact of the KKS program. This will help to illustrate the findings. For a more comprehensive understanding, contrast the KKS program with related initiatives in other nations or regions. Strengthen Conclusion and Limitations: In the conclusion, provide more detailed suggestions for additional study and program enhancement. Extend the limitations section to address methods for overcoming restrictions in subsequent research projects.</p> <p>In summary</p> <p>The paper offers insightful information about how KKS students help Indonesian rural youth develop their faith and piety. It provides helpful advice and is organized well. By addressing the found flaws and putting the recommended changes into practice, the study's impact, clarity, and depth would all be increased, making it a more thorough and substantial contribution to the study.</p>
