

Review Form 3

Journal Name:	Asian Journal of Research and Reports in Neurology
Manuscript Number:	Ms_AJORRIN_122032
Title of the Manuscript:	Myasthenia Gravis in Pregnancy
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is crucial for the scientific community as it provides a comprehensive review of managing Myasthenia Gravis (MG) during pregnancy, highlighting the complexities and unique challenges involved. It synthesizes current knowledge on the interplay between MG and pregnancy, emphasizing the need for tailored management strategies. By underscoring the importance of multidisciplinary care, it offers valuable insights for optimizing patient outcomes.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ul style="list-style-type: none"> - Include specific findings or conclusions. - Mention the scope and any limitations to set expectations for the reader. 	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust and technically sound because it comprehensively synthesizes current research on Myasthenia Gravis during pregnancy, incorporating a wide range of studies and perspectives. It effectively categorizes and analyzes the complexities of MG, including classification, epidemiology, and pathophysiology, providing a detailed understanding of the condition. Additionally, it highlights the importance of tailored management strategies and multidisciplinary care, offering practical insights for clinical application.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	ok	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
