

Review Form 3

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_122497
Title of the Manuscript:	Seasonal Variability of Pesticide Residues in Vellode Bird Sanctuary: Implications for Ecosystem Health
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study is crucial for maintaining a healthy ecosystem, protecting bird species, and promoting human health. It holds significant potential for policymakers but needs to address additional issues beyond the current scope. The research community can derive valuable insights, particularly concerning the preservation of a healthy ecosystem, from this work.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study of seasonal variability of pesticide residues in the Vellode Bird Sanctuary is vital for understanding the fluctuating levels of environmental contaminants that can impact both wildlife and ecosystem health. Pesticides, when present in varying concentrations, can have profound effects on the delicate balance of the sanctuary's ecosystem, potentially threatening bird species and other wildlife. By investigating these seasonal changes, the research can inform conservation strategies and policy decisions aimed at preserving biodiversity, ensuring a healthy ecosystem, and protecting the sanctuary from long-term ecological damage. This work is particularly important for safeguarding endangered species and maintaining the sanctuary as a haven for birds and other wildlife, thereby contributing to broader efforts in environmental protection and sustainable resource management.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	insufficient	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
