Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like the manuscript as it can help to identify the important plant species that are endangered or rare globally	
Is the title of the article suitable? (If not please suggest an alternative title)	The article mentioned title as rare and endangered, please identify rare and endangered plant species specifically	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is good and brief. kindly add again a divisional status based on rare or endangered and specifically add plant growth regulators based on conservation	
Are subsections and structure of the manuscript appropriate?	Yes, it will be great if location is marked with few photographs of the plant species	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. The manuscript is easy to understand, but there need to add some comparative study between micro propagation and other conventional techniques 2. Are micro propagation effects on medicinal outcomes by adding plant growth regulators or it consumption effects on human health? 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	There need to add recent and updated references, as many references are 1960,1999,1995. Overall a good review paper
