**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes (correct spelling of foreign)</p> <p>NO (needs revision as advised)</p> <p>Yes</p> <p>Needs revision and citations</p> <p>Abstract needs revision (should be unstructured and grammar should be corrected, word limit should be reduced). In introduction grammar needs improvement. In case report, time-period should be added. Previous history about foreign body ingestion or insertion and admissions should be given. The medications and psychiatric history are important (also, at time of follow-up). Exact description of antibiotics and resuscitative fluids should be mentioned. Kindly don't change to present tense when mentioning investigations! What suture materials were used and how repair was done? Mention level of contamination. Discussion is based on repetition of introduction and summarization of case! It needs to be more robust and focus on comparison of case with relevant literature (add foreign bodies reported in psychiatric patients). Add limitations of your case (lack of MIS). Kindly remove repetition. Conclusion should be rephrased.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>NO (needs rephrasing and correction of grammatical errors and spelling mistakes)</p>	
<p><b>Optional/General</b> comments</p>	<p>Figure legends are missing, and figures are not mentioned in text. The quality of figures is poor (check if 300 dpi or not).</p> <p>References are not recent (only one 2024, rest older than 10 years).</p>
