

**Editor's Comment:**

The authors answered the reviewers' comments. Consequently, the paper **can be accepted for** publication. However, the following minor changes must be introduced prior to the paper publication. All the figures should be numbered, they should have a caption and they should be cited in the text. Magnitudes and units should be introduced in the figures or in their captions. Tables should be cited in the text. All the equations should be numbered and their variables should be introduced in the text.
