<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<ul style="list-style-type: none"> • Title to be changed to “Control Strategies using Digital Twin Technology Application in Manufacturing” • The first sentence in Abstract is not clear and it needs completely to be reworded. It seems that author wanted to convey that with latest Industrial revolution, the manufacturing needs to move from the unilateral business model of "manufacturing + sales" to the multidirectional business model of "manufacturing + sales + service", which is termed as manufacturing service transformation. First sentence of this abstract needs to be reframed. • In section 1.1. Source of the topic, the following details are to be included: <ul style="list-style-type: none"> o Global MRO market size, o Importance of Technologies for building Digital China • Separate figure or table to be built for section 1.2 Research Background when quoting “Various maintenance methods are illustrated in Figure 1”. Figure 1 is shown in section 2 of citation trends. It will be better that two different sections have unique figure separately. • In research significance section 1.3.3 or elsewhere appropriate, sample applications using digital twin technology for manufacturing can be included. The importance of suggested framework gets better understanding when many manufacturing applications can be related. • Acknowledgement can be added. • Spell check to be done to correct words like “CONCLUSION” instead of “CONLUSION”
