Yes , its purely scientific study.</p> <ol style="list-style-type: none"> Its on, the physical condition of new cotton fibers "Surkhan-104" with fine fibers inside natural fibers has not been reported to date. The author has studied on the physical tests of the new thin fiber cotton fibers "Surkhan-104". The author has emphasised on aforementioned in the paper, of fine-fiber cotton fibers were alloyed with KMnO₄ mixtures, and samples were prepared based on them, and the temperature dependence of electrical conductivity and photoconductivity spectrum were determined. <p>A.II The title is very well chosen A.III Yes- Abstract can also contain chemical reactions to present the alloyed formation of KMnO₄. A.IV Yes A.V Its very well proven supported with the graphical diagrams A.VI References are proper , but they must be in proper APA format with alphabetically arranged.</p>
