But, unfortunately, there are some mathematical mistakes. For example, the meaning of $F[x]/\langle x^n - 1 \rangle$ is not as described in the manuscript (page 2), also the presentation of parity-check matrix comes from the coefficients of the reciprocal polynomial $h(x)^*$ of the parity-check polynomial $h(x)$, not from $h(x)$ directly...</p> <p>References are relatively sufficient and are recent.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Language quality is suitable for scholarly communications.
