

**Review Form 3**

Journal Name:	<b>International Research Journal of Gastroenterology and Hepatology</b>
Manuscript Number:	<b>Ms_IRJGH_120661</b>
Title of the Manuscript:	<b>Expert perspectives on the prescription practice of esomeprazole alone or in combination with domperidone for acid peptic disease management in Indian settings</b>
Type of the Article	<b>Original Research Article</b>

## Review Form 3

### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part.	Gastrointestinal diseases particularly GERD and Peptic ulcer disease is one of the most prevalent diseases in Asia nowadays. It is important to analyse the medical interventions used and find better drugs options that reduce side effects .This manuscript provides a comprehensive study of prescribing practices and patients choice particularly use of esomeprazole and Domperidone for treating APD and GERD. So , I clearly like manuscript and in my opinion will greatly benefit for those who are searching for scientific evidences for use of esomeprazole .	
Is the title of the article suitable? (If not please suggest an alternative title)	“ Prescription Patterns of Esomeprazole and Esomeprazole-Domperidone Combination use in Management of Acid Peptic Disease : A Cross sectional Study in India” In my opinion this title is more suitable	
Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here.	No , it is fine	
Are subsections and structure of the manuscript appropriate?	In introduction , Para 4 line 5 “its efficacy in providing symptomatic relief .....cornerstone therapy in managing APD” .please use other words like fundamental therapy , key therapy . Corner stone therapy sounds in professional . Moreover it is advised to add some graphical or visual representation showing mechanism of esomeprazole and Domperidone in managing APD . As , whole article is focused on these two so visual representation will help in better understanding .	
Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part.	Yes , the standard questionnaire is being used and results also seem to be profound and clearly align with the literature.	
Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	Most of the references are old like back from 2003 or 2009 . Its suggested to use refrences after 2015 atleast.Moreover , references are not in official format . They are been cited using multiple citation tools.	
<u>Minor</u> REVISION comments  Is language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	In methodology, there is no sufficient explanation of questionnaire used . It is suggested to add one or two more lines explaining the scientific correctness and importance of standard questionnaire being used and why opt for this.
