PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The work done by the author has a great importance in the farming community. Our farming community uses various pesticides to protect their crops. However, use of pesticides depends on their availability on local market, perceived effectiveness, and relatively affordable prices. Keeping in view of the environmental and health risks related to pesticide uses, there is a need for detailed understanding of farmers' awareness and pesticide use practices.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensive.	
Are subsections and structure of the manuscript appropriate?	The numbering of the subsection should be verified. Minor corrections are required.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The author has presented the manuscript scientifically. The abstract, introduction, results and discussion has been presented properly, revealing significant differences in pesticide use patterns between male and female farmers, decision making about pesticide purchase and use. However, the author may highlight some future strategic points on the issues encountered in the present study so that in future further work can be carried out taking the base of the present study.
