**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This manuscript is crucial for the scientific community as it provides in-depth insights into the vulnerability of farmers to climate change, a pressing global issue. It highlights the real-world impacts of climate change on agriculture, which is vital for developing effective mitigation and adaptation strategies. I appreciate this manuscript for its thorough analysis and inclusion of farmers' suggestions, offering a practical perspective that can inform policy and support agricultural resilience.</p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p>I did not find the title suitable, if it is changed, it is better, I have recommended it:</p> <ol style="list-style-type: none"> <li>1. "Assessing Farmers' Vulnerability to Climate Change: Insights and Adaptive Strategies"</li> <li>2. "Farmers' Vulnerability and Resilience to Climate Change: Perspectives and Solutions"</li> <li>3. "Climate Change Impacts on Farmers: Vulnerability Analysis and Adaptive Suggestions"</li> <li>4. "Navigating Climate Challenges: Farmers' Vulnerability and Proposed Adaptation Strategies"</li> <li>5. "From Vulnerability to Resilience: Farmers' Responses to Climate Change"</li> </ol>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>It is better if the abstract is made a little more comprehensible</p>	
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p><b>Introduction:</b> The introduction section can be improved if these steps are followed            Background of the study            Impacts            Existing Review            Importance of study            Gap as well as Objective of the study.  <b>Method</b>            When describing the methodology for a research article titled "Farmers' Vulnerability to Climate Change and Their Suggestions to Overcome," you would need to provide a detailed explanation of how the research was conducted. This includes            The research design,            Study Area and Population            Sampling Method            Data Collection Methods (Surveys/Questionnaires, Interviews, Focus Groups, Observation)            Data collection methods,            Data analysis techniques, and any tools or instruments used.  <b>Limitations of the study</b></p>	
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>The manuscript titled "Farmers' Vulnerability to Climate Change and Their Suggestions to Overcome" addresses a critical issue in agricultural science by examining the impacts of climate change on farmers and proposing potential adaptive strategies. The research appears to be scientifically robust, to assess vulnerability and gather farmers' insights.</p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p> <p>=</p>	<p>All references should be done in APA style and references should be entered through endnotes</p>	

### Review Form 3

Minor REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	The article contained several English Grammar mistakes that needed correction.	
<b>Optional/General</b> comments	<ol style="list-style-type: none"><li>1. The paper addresses a current idea and issue, regarding FARMERS VULNERABILITY TO CLIMATE CHANGE AND THEIR SUGGESTIONS TO OVER COME. The study is quite interesting but requires some extensive improvements.</li><li>2. English language should be revised considerably, in order to be appropriate for publication in a scientific journal.</li><li>3. The manuscript requires major improvements, both from a conceptual and scientific standpoint.</li><li>4. The conclusions are too general. They should be more to-the-point, in relation with the current study.</li></ol>	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
