Title of the Manuscript:	Climate Perceptions and Adaptation Practices of Traditional Marine Fishermen in Coastal Bengal, India: Toward Participatory Policy Recommendations
Type of the Article	Research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like the manuscript, it emphasizes how the climatic factors affect the coastline of Bengal, the fishermen's community, and the natural aquatic fauna. This manuscript also explains the leading factors behind climate change in coastal areas and how local fishermen's communities are affected by climate changes. This manuscript also explains the positive role of education in mitigating climate change and adopting new technologies for their well-being.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Write the full forms of abbreviations in the abstract.	
Are subsections and structure of the manuscript appropriate?	Yes, the structure of the manuscript is appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The coastline area has great importance and fishing is a source of livelihood for millions of people, climate change is affecting the fish communities which has a direct influence on the life of fishermen's communities. So there is a need to address the issues of these communities. In this manuscript, the author tried to highlight issues of coastline fishermen's communities caused by climate change.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes, references are sufficient.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes, English quality is suitable but there are some ambiguous sentences are there that need to be addressed.	
Optional/General comments
