Review Form 3

PART 1: Review Comments

| Compulsory REVISION comments | Reviewer's comment | Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| Please write few sentences regarding the importance this manuscript for scientific community. Why do you like (or dislike) this manuscript? Minimum 3-4 sentences may be required for this part. | The present article is interesting from the perspective of applying a known therapeutic method to a specific medical context, in which other types of therapies are habitually. Use of ozone therapy with good results in such a context can represent a beneficial perspective for dental practice. For these reasons, the present work deserves to be made known, through publication. | |
| Is the title of the article suitable? (If not please suggest an alternative title) | Yes | |
| Is the abstract of the article comprehensive? Do you suggest addition (or deletion) of some points in this section? Please write your suggestions here. | The abstract is comprehensive | |
| Are subsections and structure of the manuscript appropriate? | Yes | |
| Please write few sentences regarding the scientific correctness of this manuscript. Why do think that this manuscript is scientifically robust and technically sound? Minimum 3-4 sentences may be required for this part. | The extraction of the third molar is frequently associated with a psychological state of stress, but also with the involvement of oxidative stress and it is accompanied by pain and discomfort. The paper is supported by eloquent images and transparently presents the application of ozone therapy in the given operative context. The present article follows the classic structure of a case presentation and has scientific relevance. | |
| Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. | References are balanced | |
| Minor REVISION comments | The language is academically appropriate | |
| Is language/English quality of the article suitable for scholarly communications? | | |
| Optional/General comments | | |
