A minimum of 3-4 sentences may be required for this part.	This investigation focused on the hepatoprotective effects of an ethanolic <i>Asparagus racemosus</i> extract. This study's results suggest that an ethanol extract of the <i>Asparagus racemosus</i> plant may provide protection against high cholesterol, liver damage, and kidney dysfunction. To identify the exact active ingredients in the whole extract that may reduce hyperlipidemia and diabetes, further study is required. A thorough examination may be carried out after the active compounds have been identified.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Need More
